2. Risk Warning

Contracts for Difference (CFDs) are leveraged over-the-counter derivative products and carry a high level of risk to your capital.

You should only risk capital that you can afford to lose. In certain circumstances, due to fluctuations in market value you may not get back your initial investment amount. You may not only lose your initial investment but you may incur a liability to pay a further amount to cover losses. This means you can lose more money than you have invested.

Trading in CFDs is not suitable for everyone. CFDs are only suitable for investors who fully understand the risks associated with these products. You should ensure that you fully understand the risks involved, and seek independent advice if necessary.

3. Investment Performance

FP Markets does not guarantee any particular rate or return, the performance of any investment or the repayment of capital from an investment in a financial product provided by us. All investments, including speculative trades, are subject to investment and other risks. These risks are outlined in detail in the Product Disclosure Statement provided for the relevant product.

4. Worked Examples

The worked examples provided in this website demonstrate how CFD trades may work. The products, prices, interest rates, and charges outlined in these examples are for illustrative purposes only and should not be taken as an indication or commitment by FP Markets Limited as to the values that will actually apply to a trade.
